

CANCER SURVIVORSHIP E-LEARNING SERIES FOR PRIMARY CARE PROVIDERS

CancerSurvivorshipCenterEducation.org

The National Cancer Survivorship Resource Center's **NEW** E-Learning Series, designed to heighten the awareness of the ongoing needs of cancer survivors, gives primary care providers **free continuing education credits** with first-hand patient experiences, presentations by national leaders on survivorship issues, and case studies. The goal of the series is:

- To provide information on how to tailor care to cancer survivors; and
- To teach primary care providers the skills they need to provide follow-up care for cancer survivors.

Launching April 2013

Module 1: Current Status of Survivorship Care and the Role of Primary Care Providers

Learn about the latest models of delivering follow-up care for cancer survivors

View webinars led by national experts who are creating new standards of care at the intersection of primary and cancer survivorship care

Listen to the first-hand experience of a breast cancer survivor as she discusses her cancer journey – from diagnosis, to treatment, and supportive care

Module 2: Late Effects of Cancer and its Treatments: Managing Comorbidities and Coordinating with Specialty Providers

Learn about the common physical effects after treatment and the possible interactions with non-cancer comorbidities

View clinically-based presentations on implementing a coordinated plan of care with oncology specialty providers and how to manage the late effects

Hear a rectal cancer survivor share his story and describe the physical effects from his cancer treatments

Module 3: Late Effects of Cancer and its Treatments: Meeting the Psychosocial Health Care Needs of Survivors

Learn about the types of psychological and social issues that cancer survivors may encounter after completing their cancer treatment and how primary care providers can facilitate proper supportive care

View presentations by clinical experts on risk factors, how to quickly and easily screen for psychosocial issues, and a primary care provider's role in ensuring appropriate follow-up support

Listen to a prostate cancer survivor who candidly reveals the psychosocial impacts of his cancer experience

New modules will be added on health promotion, survivorship care planning, and clinical guidelines.
